

ComfortBundler Bundler

Adhesive tape
processing and
harness assembly:

Taping and bundling
machines for the
automotive,
household and
aerospace industry.

ComfortBundler, the versatile and
robust machine for bundling, marking,
fixing and insulating.

ondal

APPLICATIONS

for quick and easy bundling, fixing, marking and insulating of cables, pipes and tubes in automotive, household, and aircraft industries.

adjustable until 4 turns of tape

ergonomic handling by adjustable inclination angle

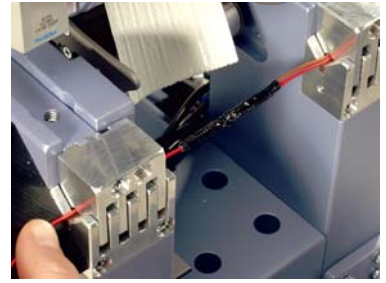

MODELS

B 16/19
Bundle diameter
3-16 mm
Tape width 9 - 19 mm

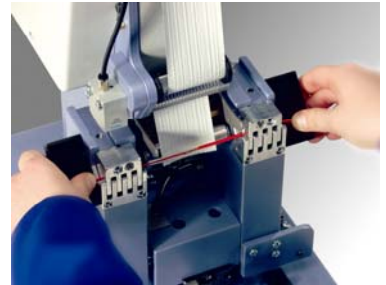

B 16/38
Bundle diameter
3-16 mm
Tape width 19 - 38 mm

B 16/50
Bundle diameter
3-16 mm
Tape width 19 - 55 mm

B 40/30
Bundle diameter
13-40 mm
Tape width 19 - 30 mm

Insulation of electrical junctions, fast and easy with lowest cost

Bundler

TECHNICAL DATA

Tape material:

self-adhesive PVC, cloth, coated cloth, paper

Drive:

pressed air without oil, consumption abt. 5 litres/cycle

Cycle duration:

app. 1,5 seconds

Tape roll diameter:

centre 1,5" and 3", outside 155 mm max.

Safety:

CE approved
